

CIHAN ERENLER

FRONT-END ENGINEER

ABOUT

I am a highly motivated software developer who has experience in front-end and back-end development. I have worked as a trainee at two reputable companies, gaining valuable industry experience and honing my skills in programming languages and frameworks such as Javascript, Typescript, React.js and Node.js and I am currently working at security company as a front-end engineer. I am a team player with strong communication and problem-solving skills, always eager to learn new technologies and make a meaningful contribution to the team.
